

DATA FILES

Data files are sets of data containing information which are published in Aerodrome Database and AeroBáze publications. They are extracted as special exports directly from the source database. Data files allow you to use **up-to-date high quality information** anywhere and any time you need it.

AeroBáze
DATABÁZE
LETIŠŤ

What kind of data do we offer?

There are several kinds of standard data sets in our offer, which contain everything from the basic address data to general information about the companies or the aerodromes. The **data sets** are formed into the **text files** so you can easily import them for example into **Excel programme** or into **any other database**. We also offer the **address data** in the address form right on **stickers**.

The content of the database

Our database holds about 1100 business contacts to different companies dealing with aviation, to connected branches and their suppliers, 148 Czech and 31 Slovak aerodromes. We regularly update all the data through the year according to the real situation. The business contacts can be updated directly on-line through the web pages by the companies representatives themselves. Once a year we make a proof check of all the data.

How can you use the data?

- ⇒ You want to contact the pilots and the operators of the airplanes on Czech and Slovak aerodromes - use the Aerodrome Database address data
- ⇒ You need to offer your products or services to companies in aviation branch - use the AeroBáze address data
- ⇒ You would like to enlarge your information system with the contacts to companies operating on the Czech market including contact persons, phone numbers, web and e-mail addresses - use AeroBáze data file
- ⇒ You would like to publish a publication, a map or you would like to make a programme containing information about Czech and Slovak aerodromes - use the Aerodrome Database data file Full or Basic
- ⇒ You would like some information about Czech and Slovak aerodromes to be available in your GPS, LOGGER, PDA, computer programme or in other application, but it's producer doesn't supply the data - use the Aerodrome Database data file Full or Basic, or special data export

OFFERED DATA

Address data • Business data • Aviation data • Data files extent • Special data exports

Address data

The file holds data suitable for mass correspondence distribution to selected range of companies or aerodromes. **Contained items:** Aerodrome operator (or Company name); Aerodrome name; Address; Town; Post code; Country. Order: Czech Republic, Slovak Republic, alphabetical order by name

Business data

The files hold data from the AeroBáze publication - Czech Aviation Directory.

We offer the files in four different forms:

- **addresses only**
- **addresses + internet** (web address and e-mail)
- **addresses + internet + phone connection** (1 - 2 phones and fax)
- **addresses + internet + phone connection + contact persons** (up to 3 contact persons are presented with company - name, position, connection)

Contained items (depending on selected form): Company name; Address; Town; Post code; Country; Url adress; E-mail adress; PhoneNo1; PhoneNo2; FaxNo; Contact person - name; Position; Contact (up to three persons)

Order: Czech Republic, Slovak Republic, alphabetical order by company name

Data files extent

Data files offer you the selection of the companies by their activities and aerodromes exactly in accordance with your needs. **Offered data sets** (you can find the nomenclature numbers according to AeroBáze nomenclature in brackets): aerodromes addresses (9.01-9.04); aerodromes and aviation clubs and associations addresses (9.01-9.04 + 5.02); aerodromes and companies addresses (at full range); companies addresses - aviation operators and flight schools (1.01-1.04); companies addresses - manufacturers and dealers + trade and services (3.01-3.14 + 6.01-6.10); companies addresses - aircraft modelling (11.01-11.05)

Aviation Data

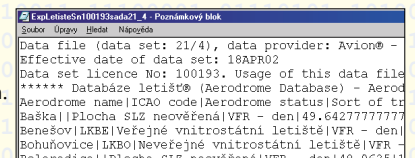

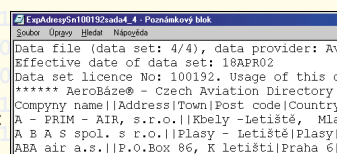

This file contains data from Aerodrome Database publication.

We offer the files in two forms:

- **Aviation data Basic** - holds operating informations, coordinations at WGS84, elevation (metres and feet), communication frequencies, RWYs direction, phone numbers
 - **Aviation data Full** - holds extra RWYs strength and dimensions, aerodrome location, operational hours, custom services, fuels and oils availability, services and fees, full contact to aerodrome (address, phones, fax, e-mail, web, direct phones), information about traffic limitations and activities on AD
- Contained items** (depending on version): Aerodrome name; ICAO code; Aerodrome status; Sort of traffic; N coordinate WGS84; E coordinate WGS84; ELEV meters; ELEV feet; Communication frequency (up to 4 frequencies); Direction RWY; Dimensions RWY; Strength RWY; Aerodrome location; Operational hours; Custom services on AD; Fuels available; Oils available; Other services; Landing and other fees; Aerodrome operator; Address; Town; Post code; Country; Url adress; E-mail adress; PhoneNo1; PhoneNo2; FaxNo; Direct phone to TWR/AFIS; Direct phone to ARO/BRIEFING; Direct phone to MET; Informations about aerodrom traffic limitations; Informations about activities on aerodrome and around; Information certificate; Order: CZ, SK, alphabetical order by aerodrome name

Special Data Exports

None of the offered data sets are suitable for you? We will create a special data export exactly according to your demands. The export can be enlarged with some other items contained in our database and the form of it's elaboration is only up to your wish.

The latest and high quality information keeps you ahead of the competition!

DATA FILES SAMPLES

Address data • Business data • Aviation data

Business data (sample of full version):

Data arrangement: Company name | Address | Town | Post code | Country | Url address | E-mail address | PhoneNo1 | PhoneNo2 | FaxNo | Contact person - name | Position | Contact | Contact person - name | Position | Contact | Contact person - name | Position | Contact

Data sample - company Avion: Avion - Patrik Sainer | Sudoměřská 48 | Praha 3 | 13000 | Česká republika | <http://avion.aerobaze.cz> | avion@aerobaze.cz | 02-22720960 | 02-22720963 | 02-22720961 | Patrik Sainer | jednatel | 02-22720963 | Lucie Fantová | asistentka | 02-22720960 | | |

Aviation data (sample of data set FULL):

Data arrangement: Aerodrome name | ICAO code | Aerodrome status | Sort of traffic | N coordinate WGS84 | E coordinate WGS84 | ELEV meters | ELEV feet | Communication frequency 1 | Communication frequency 2 | Communication frequency 3 | Communication frequency 4 | Direction RWY 1 | Direction RWY 2 | Direction RWY 3 | Dimensions RWY 1 | Dimensions RWY 2 | Dimensions RWY 3 | Strength RWY 1 | Strength RWY 2 | Strength RWY 3 | Aerodrome location | Operational hours | Custom services on AD | Fuels available | Oils available | Other services | Landing and other fees | Aerodrome operator | Address | Town | Post code | Country | Url address | E-mail

address | PhoneNo1 | PhoneNo2 | FaxNo | Direct phone to TWR/AFIS | Direct phone to ARO/BRIEFING | Direct phone to MET | Information about aerodrom traffic limitations | Information about activities on aerodrome and around | Information certificate |
